

You need to crack working Email access Netflix accounts.

I prefer Woxy or All In One Checker
Download AIOC Checker

https://anonfile.com/W484Z0i1bc/All_in_One_Checker_rar

DO NOT use @gmail @hotmail @outlook and any other email accounts where you can't log in.

I prefer to use @t-online @free.fr @uol.com.br and so on....

I recommend you to download Thunderbird, so you avoid problems..

Download Thunderbird
<https://www.thunderbird.net/>

1) First Step

Click here - <https://www.netflix.com/de-en/LoginHelp>

Paste Your cracked Email inside the box
Request a Password Reset to your „email netflix account“

Click on - Password Reset

2) Second Step

Login in thunderbird with that email where u sent password reset link

3) Third Step

Scroll down untill u find very recent email of netflix at bottom of emails

Click on it

Click on password reset button

4) Fourth Step

Here is the catch !! U actually dont have to change password u just have to click on password reset link

When u click on it u will b redirected to netflix password reset page where u have click on netflix logo (top left corner) or profile logo (top right corner)

3) Fifth Step

Now you have a netflix account until the owner is not paying anymore.

Note :

1) This works only in PC

2) Never ever change Email or password in any condition if u want to use it for lifetime

3) DELETE ALL THE EMAILS REGARDING NETFLIX FROM THUNDERBIRD BCZ IF OWNER SEES THT THAN HE WILL KNOW SOMEONE MESSED WITH HIS ACCOUNT

ENJOY !!
