Hello everyone welcome to my guide and today I will be covering how to get yourself a free Netflix gift card.

-Free tools
-No need of HQ proxy
-All of the required tools are posted down below

So let's get started.

Hello so you want to crack netflix giftcard? well let me get some stuff clear

1) You will need to be patience
2) You can use your Own pc or Rdps
3) HQ proxy is not compulsory but you can use it for good cpm.

TOOLS YOU WILL NEED:

Proxy scrapers:

Proxy checkers :
https://anonfile.com/N4W027h7bc/Proxy_Checker_v0.2_By_X-SLAYER _rar

RapeFlix : Shared below

So after you have downloaded those tools you need to search for working proxy you can use proxy scraper by Kidux (only Http) Or you can use sites which gives free proxy or Nulled.to proxy page

After you have got the proxy you will need to check if they are working or not in this case I would suggest you using proxy checker by X-Slayer v0.2.
Just open the .exe file and enter this link in the top box : https://www.netflix.com/redeem after you have done that leave the checker for a while you will need at least 6-10 good proxy

Now after that is done then open Rape felix for me the latest version right now is 1.4 after you have opened it will say you to select config file (MAKE SURE THAT PROXY TYPE IS SET TO HTTP OR IT WONT WORK) and
then select the proxy file then it will give you 2 options one is Checking and another is brute force (If you don't know what brute force means then it will generate code itself and check it)
Then it should start checking codes
